

About Us

What does the CARE Team do?

The Campus Access, Retention & Equity (CARE) Team is a multidisciplinary partnership which consists of CSU Channel Islands (CSUCI) faculty, staff and administrators who are dedicated to the personal growth and academic success of students. We know that college can be challenging at times and that you may need help along the way. The CARE Team coordinates and develops a centralized response to provide assistance and intervention for students of concern and evaluates and monitors the ongoing related issue(s).

How can you help?

Every member of the CI community can do something to show that they care. The primary action you can take to help a person is to provide support. Helping often means getting others involved who have expertise and are responsible for working with individuals who may be struggling.

Reporting CARE Concerns:

Your expression of interest, concern, and compassion is an important factor to provide support and intervention toward students obtaining the assistance they need. If you are concerned about a student, or the behaviors they are exhibiting, please visit our website to make a referral.
